

The seminar was lots of fun for all. 10 Countries were represented there as well as several states. This has been a long standing seminar for many years. Richard Bustillio has had a great relationship with Gokor for quite a while and the two have great respect for one another. Ken Harte was twisted into a pretzel many times as was usual. "The seminar was filled with great technique." said Ken to his students that evening. Congratulations to all and great work.
